

SOLARIS RESOURCES

TSX: SLS; OTCQB: SLSSF

Health and Safety Policy

Solaris Resources Inc. (“Solaris” or the “Company”) is committed to protecting the health and safety of its employees, contractors and vendors, and the communities in which we work. As safety is an integral component of our corporate culture, we place a strong emphasis on safety training and skills development. Our goal of zero harm reflects our commitment to striving to prevent all occupational injuries and illnesses. We continue to strive for zero injuries by focusing on improving leading indicators and accident prevention initiatives.

Management Commitment

All levels of Solaris management commit to the development, implementation, maintenance and continual improvement of health and safety programs. We believe it is the responsibility of management to set the expectations and assure adherence to company policy, and we will act accordingly. Solaris’ management will ensure that policies, programs, and performance standards are an integral part of our planning and decision-making.

Health and Safety

The health and safety of our employees and the communities in which we work is at the core of our Company and at the forefront of our policies and decisions. The Company is responsible for maintaining safe and healthy working conditions and will follow operating procedures that safeguard employees, contractors, vendors and the communities in which we work. Solaris strives to maintain a health and safety management system aligned with the best international standards and which also complies with host country regulations.

Compliance

Solaris strives for full compliance with applicable health and safety laws and regulations. Employees are responsible and accountable for compliance and have an obligation to bring issues forward to management for resolution. Solaris will strive to contribute constructively to shape public policy that is based on sound business principles and realistically achievable goals.

Planning and Assessment

The Company registers, evaluates and reports on health and safety programs using proactive and reactive indicators used in the mining sector. Health and Safety training and skills development is provided that aligns with our health and safety standards. The Company strives to apply best practices based on prevention and develops emergency response and crisis management plans. Solaris is committed to achieving an injury and incident-free workplace through the following activities:

- Education of health and safety risks,
- Implementation of health and safety procedures,
- Provision of health and safety equipment and personnel,

SOLARIS RESOURCES

TSX: SLS; OTCQB: SLSSF

- Prompt reporting of any injuries and incidents to ensure lessons are learnt and equipment and procedures are adapted, if required, and
- Regular review of compliance to health and safety policies to avoid complacency.

Capital projects and operating plans will be reviewed by Solaris management in terms of this policy and in concert with the objectives and targets developed as a result of the policy. Appropriate programs will be implemented, maintained, and internally evaluated to ensure consistency with this policy.

We require employees at all levels to follow environmental, health, and safety procedures appropriate to their function, and we encourage employees to participate proactively in our environmental, health, and safety programs. We will inform contractor and visitors of this policy and require compliance while within any Solaris facility and when performing work for the Company.
